PLANS FOR JOHNNY MILL-OPHIR SULPHIDES.

as great as Samuel Newhouse's Cactus, and in which his own engineers have measured up no less than \$6,000,000 worth of ore down to the 300-foot level, after about one year's development

At the time Mr. Lewis failed in his effort to finance the Royal company, and was obliged to see its property pass into the hands of Mr. Newhouse, he had opened negotiations for the old Commet mine, adjoining the Cactus on the east, with the purpose of turning it over upon acquirement, to the if over, upon acquirement, to the Royal organization. Losing the one did not deter him from continuing the struggle to land the other, and he now announces that the money to complete the purchase has been provided, as well as \$50,000 with which to prosecute the

first year's developments.

During the next few weeks a corporation, to be known as the Columbia, will be formed to take over the property, and Mr. Lewis announces that ten men, including himself, will own every share in the company. The property consists of six claims, and work upon it will begin in earnest just as soon as machinery can be planted on the ground after incorporation.

the ground after incorporating.
That the Commet has good ore is evidenced from the fact that years ago Lorin Morrison made shipments from it carrying eighty-eight ounces silver. 28 per cent copper and \$8 in gold per ton. From a shaft 170 feet deep a crosston. From a shaft 170 feet deep a crosscut was run into the ledge on the 100fcot level eighty-seven feet without disclosing the opposite wall, and from
these workings to the west end lines,
up to which the Cactus has followed
the great ore body on its 300 level, is
conly between 490 and 590 feet, and
there is no question but what the continuation of the same body is exposed
in the Commet workings.

ROAD TO THUNDER.

Sagainst \$882,779 Dec. 31, 1990.
Tetro has been weak and Martha
Washington has gone off over 2 cents a
day. When the reduction in the
price of copper occurred the company
had aproximately 1,500,000 pounds of refined copper on hand, and 2,500,000
pounds in transit of refining.

ROAD TO THUNDER.

Anchor

In addition to the shaft, there is a 300-foot tunnel that has not yet tapped the vein mentioned, while a second and parallel ledge remains practically

equally as valuable as the Cactus," said Mr. Lewis, "I have not the least doubt, and we intend to demonstrate it before the year closes,"

Thus the tireless and nervy promoter

of Beaver county's matchless mineral resources is preparing to add another great producer and money-maker to his already long and magnificent string of bonanzas.

### JOHNNY'S NEW MILL.

Plans Are Out and Bids Will be Asked For During the Week.

Important business is being transacted by the Johnny Gold Mining company of Stateline, which, within the next few days, will have awarded the contract for a new combination amalgamating, concentrating and cyaniding plant of generous capacity before the end of the present week.

plant of generous capacity before the end of the present week.

Last night a dozen or more of the shareholders, including W. J. Halloran, F. D. Clift, Frank Wilson, Henry New ell, W. J. and N. P. Dooly, George Silks, Joe Lippman and N. A. Page, pulled out for Stateline to attend the regulation of the comsemi-annual meeting of the co

Manager W. J. Dooly, who has not been away from the mine since last October, came up yesterday morning and left with the party last night, taking with him the plans of the new mill.

They will be submitted to the stock-Manager W. J. Dooly, who has not will be submitted to the stockholders in regular session, and upon their approval bids for the erection of buildings with room for a twenty-stamp plant, though it was probable that ten only would be put in at the start. However, if the cost was not proportionately too great, the whole twenty might be ordered.

The mine, he said, was showing up splendidly, and, with fine reserves of ore in which gold predmoinates, he was ore in which gold predmoinates, he was confident that a gratifying record would be made from the moment the mill went into commission. With the Ophir doing so well, the Johnny preparing to treat and convert its ores into cash, and the rapid strides that were being made by other Stateline properties in the same direction. were being made by other stateline properties in the same direction, Manager Dooly said the outlook for the camp was never so bright. In fact, the district is on the verge of a meri-

## RICH SHIPMENT FROM OPHIR.

Manager Lathrop Will Land a Ton of Sulphides Tomorrow.

Arrivals from Stateline yesterday orought the information that during the next few hours Manager Lathrop should arrive with a ton of sulphides from the new mill that will contain not less than 13,000 ounces of silver, \$500 in gold and 15 per cent copper. "and that." said The Herald informant, "does not mean the shipment of all the accumulated product, by any means." The values contained are believed to considerable exceed the estimate made, for the reason that the first trial shipment of 600 pounds, made before the mill had got down to regulation work, averaged that much in proportion, while a better extraction has since resulted. The Ophir is coming along all right

and the mine is said to be opening up new riches at an astonishing rate.

## DEXTER'S APRIL OUTPUT.

Amounted to \$9,200 in Gold Bars and Cyanides.

The final April consignment of gold bullion and cyanides from the Dexter company's property at Tuscarora, Nev., was reported at the secretary's office yesterday. About the middle of April gold bars worth \$2,500 were received, and yesterday the month's run was rounded out by the receipt of \$4,000 worth of gold bullion and \$2,700 worth of gold bullion and \$2,700 worth of cyanides, making a total of \$9,200.

Over 10 0tons of ore is now going through the mill daily and the maximum capacity of 130 to 140 tons is begold bars worth \$2,500 were received, and yesterday the month's run was rounded out by the receipt of \$4,000 worth of gold bullion and \$2,700 worth of cyanides, making a total of \$9,200. Over 10 0tons of ore is now going through the mill daily and the maximum capacity of 130 to 140 tons is being rapidly approached. April was a cold, stormy month and the run was not as heavy as anticipated in consequence. Barring accident, May will be a rattler.

"Iked the food for dinner.

"My husband has never been known to fancy cereal foods of any kind, but he became very fond of Grape-Nuts and has been much improved in health since using it.

"A friend has two children who were formerly afflicted with the rickets. I was satisfied that the disease was caused by lack of proper nourishment. They showed it. So I urged her to use

not as heavy as anticipated in consequence. Barring accident, May will be a rattler.

DALY-WEST AFFAIRS.

Capital Will be Increased Tomorrow and Dividend Declared.

The Daly-West Mining company will transact two very important pieces of business tomorrow—one in Denver, the corporate headquarters, and the other by the directors on this end of the line. At Denver the shareholders in special session, with more than 140,000 of the 150,000 shares represented. Will ratify the action of the company's officials in acquiring the Quincy and agreeing to pay therefor 30,000 shares of Daly-West stock after the capital shall have

been increased by that number. Here the directors will meet and declare dividend No. 3 of the new series in the sum of \$72,000, or 40 cents a share on the capital of 180,000 shrees, with payment to follow on the 15th, as usual.

In the meantime, new avenues are being driven into the ore bodles of the Quincy territory at different points, while the shaft is continuing on down to a connection with the lower workings of the Daly-West mine, proper. Every week and every day, almost, the output is being increased and the company is gradually adding to its reserve, notwithstanding the increase of the dividend from \$60,000 to \$72,000 per month.

been increased by that number. Here the directors will meet and declare dividend No. 3 of the new series in the sum of \$72,000, or 40 cents a share on the capital of 180,000 shares, with payment to follow on the 15th, as usual.

In the meantime, new avenues are being driven into the ore bodles of the Quincy territory at different points, while the shaft is continuing on down to a connection with the lower workings of the Daly-West mine, proper. BAS \$50,000 TO SPEND ON IT

RED ROCK ROUTE OPEN.

First Pack Train of 105 Animals Reached Thunder April 27.

A NOTHER enterprise is being launched in Beaver county by A. B. Lewis. This insures the bringing out of another poperty every whit "Sec. Transportation Committee."

"Salmon City, Ida., May 3 (via Red Rock, Mont.).—D. E. Burley, Salt Lake: Fred Holcomb just arrived from Thunder mountain. He reports first pack horses reached camp Sunday, April 27. (Signed.) "BANNIGAN," "Sec. Transportation Committee."

"Sec. Transportation Committee."
The above dispatch reached D. E. Burley, general passenger agent of the Short Line last night. It indicates that the Red Rock-Salmon City route to the new Eldorado has been opened, and that the train of 105 pack animals, each carrying a load of approximately 200 pounds of provisions and supplies, that was started out some three weeks ago, have, with the assistance of the great gangs of shovelers sent out by the gangs of shovelers sent out by committee organized to open the route, arrived at their destination.

With that route opened to animals,

the great rush from Red Rock and Salmon has probably commenced by this time.

UTAH CONSOLIDATED REPORT. Profits For 1901 Less Than For Previous Year.

(Special to The Herald.)

Boston, Mass., May 3.—The annual report of the Utah Consolidated Gold Mines company, limited, for the year ending Dec. 31, 1901, has just been made public. It shows that its operating company, the Highland Boy Mining company, had received from the sale of 14,782 ounces of gold \$295,645; 240,800 ounces silver. \$137,157, and from 7,123,197 pounds copper. \$1,158,3900; the aggregate from all sources being \$1,596,703.

The balance sheet after the payment of two dividends amounting to \$800,000, shows a balance to profit and loss of (Special to The Herald.)

shows a balance to profit and loss of \$649,468 against \$882,779 Dec. 31, 1990. During the twelve months ended Dec. 31, 1901, the smelter treated 167,823 tons

B. E. Shear Writes a Little Truth Concerning Weiser Route.

In view of the fact that there has been considerable talk the past week or so about the number of people who are going into and coming out from Thunder mountain over the Bolse-Weiser-Warren route, the news contained in a letter from Byron E. Shear, the well known Colorado operator, to J A. Czizek, who is making preparations to go on to Warren and later to tions to go on to Warren and later to Thunder mountain, himself, will be 'n-

teresting.
Mr. Shear writes from Meadows, fifty
miles this side of Warren and ninety
miles from Thunder, under date of April 29, as follows

"— is at the Payette lakes, trying to get to Warren. I take the stage tomorrow for Goff. It will take three weeks to open the road to Warren. The snow is getting full of water at the bottom, and the trail to Thunder is worse now than it was in the winter. worse now than it was in the winter Water and mud galore."

MINING STOCK MARKET.

A Cheerless Week Closes With a Slight Improvement.

The week on the mining exchange closed yesterday to a light business: During the single call and open board session 50,548 shares sold for \$12,366. For the entire week 675,218 shares changed hands, the selling value being \$270,263, a falling off, as compared with the pravious week of 13,564 shares and the previous week, of 130,564 shares and \$43,811.60.

Trading was characterized by a delicacy of poise that was nerve-shatter-ing and a lack of interest on the part of the speculating public that could hardly have been expected to result other than in a weakening. That great-er havoc was not wrought is a mystery,

## PUZZLED.

Hard Work Sometimes to Raise Children.

Children's taste is ofttimes more ac curate in selecting the right kind of food to fit the body than that of adults. Nature works more accurately through

A Brooklyn lady says: "Our little boy has long been troubled with weak digestion. We could never persuade him to take more than one taste of any kind of cereal food. He was a weak kind of cereal food. He was a weak little chap and we were puzzled to know what to feed him on. One lucky day we tried Grape-Nuts. Well, you never saw a child eat with such a rel-

than it began, at \$45.50 asked, while South Swansea is about 14 cents lower, at 60 cents and 61 cents. The latter's weakness can be attributed to no other cause than that holders have been made to believe that should the control pass under the pending of tion to the smelter combine, the minority would stand no show. The sale has not been consummated, however, and with the splendid developments on the lowest level of the mine, it is not thought it can be held down to present prices under any honest management.

Lower Mammoth has also been hit for over 10 cents a share, though there is no doubt that the mine is earning good money now and that the physical condition of the property is constantly improving.

May Day continues to hold close to 30 cents a share, while Uncle Sam, after and you continues to nois close to 30 cents a share, while Uncle Sam, after a drop of 3 cents or 4 cents, is picking up again and closes with a sale at 32 cents. It was held at 35 cents to 37½ cents on Monday. The mine is understood to be improving and important disclosures are expected very soon.

Century has held up well under the strain and registers a substantial gain. Monday the best price obtained for it was 55% cents, while yesterday it sold from 60 cents up to 68 cents, and closed on a transfer at 64½ cents. The mill's first month's run since resumption has been handicapped by close-downs, changes and repairs of various descriptions that cut its actual time down to little more than twenty days, but it turned out about \$6,000.

California has been unmerc. 'ully

turned out about \$6,000.
California has been unmerc.fully hammered. Monday it was selling at 18 cents and yesterday it closed on a sale at 9½ cents, the fallure of the company to raise the money to pay off the mortgage being the cause.

Star Consolidated, that had sold down to 16 cents, jumped on Wednesday and the next day sold up to 24 cents on reports that a strike had been made. It closed on a transfer at 21½ cents and Joe Bowers has sold at 4 cents to 5 cents, while La Reine lost caste and fell from over 13 cents to 9% cents.
